Easily accessible hiking and skiing area

The Klewenalp is a family-friendly, inviting recreation area. From here, in summer, you can go on smaller as well as more challenging hikes with a beautiful panoramic view and in intact nature. There are playgrounds for children, a detective trail and a fox trail, which make the trip a pleasure for the whole family. In winter, the ski area offers slopes for every taste, far away from the hustle and bustle and large crowds - but always fun. And not to forget: from the Klewenalp you have the most beautiful view of the village of Vitznau!

The cable car to the Klewenalp can be reached after a 15-minute boat ride directly from Vitznau and a 5-minute walk to the valley station.
