## Rope park adventure over 4 kilometers

Only a few kilometers away from Vitznau, children, young people and, of course, adults can have great adventures at the Rigi rope park. On seven routes and around 4 km in length, challenges of various levels of difficulty await even experienced rope park visitors and always at great heights! You should plan at least 3-4 hours for the excursion. Safety is a top priority and trained guides instruct every climber on how to use their equipment correctly. For the smaller children there is a large playground with trampolines. The rope park can be reached from Vitznau in 20 minutes by car or with an e-bike or bicycle.
