Summer Sounds Matinee

Concert with Wällbläch

Wällbläch - the 7-piece band around Michaels Kreuz LU. Wällbläch - Finest Brass Sound of the good 80s and 90s. Anyone who has heard them before will confirm it: Wällbläch are a phenomenon. For more than 15 years, they have been delighting audiences at home and abroad with their own arrangements. They were founded in 1999 following a Swiss Entertainment Contest in Bern. After several rounds of cosy merriment, the idea was born to create a brass band dedicated to the music of the 80s and 90s. No sooner said than done. The first rehearsals took place just a few weeks later. Since then, the band has been touring the region every year with new pieces in their luggage. Always on the lookout for cool gigs and events that they can enrich with their upbeat musical style.
