Summer Sounds Lakeside Weggis – BronxX in Concert

BronxX has been touring throughout Switzerland as a rock band since 1997.

Over ¼ century full throttle and not a bit tired. This is how the five musicians and their front woman enjoy their live gigs on stage and let this joy, this spark, spread to the audience. They guarantee a rocking evening with a select repertoire that includes rock gems from the 70s to the 90s and highlights from a long, moving rock history. Line-up: Two versatile guitars (Stefan Troxler / Hans Brunner), a multi-layered drum (Christoph Grüter), a groovy bass (René Brun), an unmistakable Hammond with Lesley (Stefan Schmid, alias Jvan) and two lead voices (Stefan Troxler and Claudia Portmann), which allow plenty of scope for sensitive ballads through to earthy, no-frills rock songs. BronxX's repertoire ranges across the unforgettable history of rock 'n' roll, from Robert Palmer's 'Addicted to love' to ZZ-Top's 'Gimme all your loving', from Chuck Berry to Amanda Marshall. Even after 26 years, BronxX still see their gigs as great fun and the joy of good, honest music and as a shared, instrumental celebration with like-minded people and fans, or those who want to become fans.
