the art of UP in the 'Bergwerk'

Exhibition at Bergwerk the art of UP from May 3-10, 2025

Mountains and plains, the sea of fog, this vastness. This is the Rigi. There is even more to marvel at, thanks to the mine, the former village store, now a great space for beautiful things. My husband drew and painted. He did it unconventionally and with virtuosity, with an amazing imagination and humor. His works slumber in dark drawers. They want to come to light, bring joy, be in someone's home. For now, they travel to the Rigikaltbad mine and enjoy the view. And you can buy one and are welcome to just look. Just drop by and enjoy the beauty, a drink, a snack and a chat. Note: This text was translated by machine translation software and not by a human translator. It may contain translation errors.
